

## Introduction

WeRateDogs is a Twitter account that rates people's dogs with a humorous comment about the dog. These ratings almost always have a denominator of 10. The numerators, though? Almost always greater than 10. 11/10, 12/10, 13/10, 13.5/10 etc.

We analyze the data from their twitter account with details such as (tweet ID, timestamp, text, etc.) for all 5000+ of their tweets as they stood on August 1, 2017.

## Insights

On analyzing the cleaned data we found out that :

We have data on the WeRateDogs Twitter handle from **November-2015 to August-2017** with 2016 having the most tweets (974) and the most active month being December-2015

Most **98%** of WeRateDogs Twitter Traffic comes from `Twitter for iPhone`

The most dogs are in the *pupper* stage

We have ratings numerator ranging from 0 to 1176, while denominators range from 2 to 170 - with 79% of the tweets with numerator ratings greater than or equal to the denominator

It was also note that when the numerator rating was greater than or equals to 10, the tweets had a higher number of retweets and favorite counts

## Visualization

As shown on the below image the most common dog breeds on the WeRateDogs Twitter page are the : *Golden Retriever, Labrador Retriever, Pembroke, Chihuahua, Pug, Chow, Samoyed, Pomeranian, Toy Poodle and the Malamute* - with
